Dobermann Dogs Critique

"I would like to thank the North of England Dobermann for inviting me to judge their show. I can honestly say since judging dogs in 2009 we do not seem to be improving our breed. Shoulders and upper arms have always been a problem but the word "elegant" seems to be missing in breeders thoughts. Having said that there were five dogs today I would have been more than happy to have owned or bred.

Judge: Mr D Mitchell (BOSSKAT)"

MINOR PUPPY DOG (1 entry).

1st Wall & Bolton's Jarjarjinx True Grit, Medium size black & rust with good head planes but would prefer more underjaw, nice dark almond shaped eye. Super reach of neck leading into well placed shoulders although a little straight in upper arm pasterns strong and feet well arched. . Correct slope to topline, nice rear angulation. Preferred the overall movement of the PD for best puppy.

PUPPY DOG (6 entries, 2 absent).

1st Webbs Monarkle Mad Bad Jack, Good size brown and rust, good head planes with slight stop, eye shape and colour correct. Nice reach of neck, excellent shoulder angulation and a good lay in of shoulder, something rarely seen a little straight in upper arm Body shape square, strong backline, croup well filled out would have liked a bit more turn of stifle. Moved well and in great condition handler got the best out of him. R.B.P.I.S

2nd Matthews Lebakker Tymur Taraz at Heathwaen, Strong black and rust puppy, head ok would have liked more length of foreface, strong underjaw but has too much flew. A little stuffy in neck due to forequarters being set forward although angulations acceptable. Backline hard, tailset correct, good rear angulation with well bent stifle and hocks straight. Shown in very good condition and well handled.

JUNIOR DOG (3 entries).

1st Webbs Monarkle Mad Bad Jack.

2nd Sanderson's Aritaur Cardinal Red at Jodaseen, Medium size brown and rust, would have liked a better head piece, good reach of neck and front angulations although lay in of shoulder a little wide. Forechest well developed and elbows close to brisket. Back short and firm with excellent tail set and a tail carriage I personally prefer. Nice rear angulation with a well bent stifle and hocks perpendicular. Markings well defined and in excellent condition.

MAIDEN DOG (3 entries, 2 absent).

1st Spindley's Mytanamy's Stop and Frisk, Medium size black and rust, Head and skull flat, planes parallel with a slight stop, needs more length to his muzzle lips tight and eye shape and colour correct. Forequarters set forward and a little straight, needs more depth in brisket. Rear angulation straight.

NOVICE DOG (2 entries).

1st Evans,Thompson, Wall and Butler's, Amazon Armani, Good size black and rust, head ok, almond shaped eye with correct hue. Neck stuffy, shoulder assembly set too far forward although angulations acceptable lay in of shoulder wide, forechest well developed. Feet compact and strong pasterns, good spring of rib nice slope to his topline, croup well filled out and balanced rear angulation. Moved well and handler got the most out of him.

2nd Matthew's Lebakker Tymur Taraz at Heathwaen.

GRADUATE DOG (3 entries).

1st Evans,Thompson, Wall and Butler's, Amazon Armani.

2nd Anderson's Krieger Ring Master, Medium size black and rust, good head and nice dark eye. correct reach of neck flowing into well placed shoulders, body square and elbows close to brisket. Backline short and firm, balanced rear and stifle well bent. Movement ok but in very good condition and expertly handled.

POST GRADUATE DOG (3 entries).

1st Brown's Freelance Collateral, Standard size black and rust, I wrote at the bottom of my notes "old style of Dobermann" very well balanced front and aft, forelegs straight pasterns strong and feet catlike, super forechest and spring of rib which is lacking in many dogs today, strong topline and correct tailset. Moved very well, handled superbly and in excellent condition.

2nd Lainchbury's, Ashlain Makriammos, Standard size black and rust, Strong head but too much stop, good dark almond shaped eye, excellent reach of neck and very good front angulation, he just needs another inch to his foreleg. Super topline and tailset good rear angulation. Preferred the movement of the winner.

LIMIT DOG (6 entries, 1 absent).

1st Cairns, Supeta's Secret Wizzard at Dronski, Medium size black and rust, stunning elegant and well balanced square young male, super head, eye shape and colour. Excellent front and rear angulations, well developed forechest, elbows close to brisket feet well arched and catlike Backline short and firm which he held on the move. In absolutely the best condition, I have no doubt he WILL become a Champion. Expertly handled. R.C.C.

2nd Mayers, Amazon Kandy Man, Medium size black and rust, Head in proportion, slight stop and good depth of muzzle. Nice dark eye, good reach of neck and one of the best fronts of the day. Super spring of rib with elbows lying close to brisket. Gentle slope to topline and tailset correct. Good rear angulation and turn of stifle, legs straight and hocks perpendicular. Preferred the head of the winner.

OPEN DOG (10 entries, 1 absent).

1st Evan's Ch Amazon El Torro, Good size black and rust, judged him as a puppy and gave him the RCC and predicted then he would become a Champion and has not disappointed. He has matured since then, good head and reach of neck flowing into excellent shoulder angulation and upper arm. Well developed forechest and nice spring of rib. Looks great in profile with an excellent topline and tail set, sound rear angulation which he used well on the move driving out from the rear. CC and in agreement with my co judge BIS.

2nd Jones, Ch Amazon Russian Ice, at the bottom of my notes it said "a very nice dog" Standard size black and rust very well balanced in all departments, to be critical I would have liked a little more of him but in super condition and superbly handled.

VETERAN DOG (3 entries).

1st Mycroft and Atkinson's Ch Supeta's Wicked Wizzard at Sonakint, Good size black and rust, Have seen him from ring side on many occasions and to be honest he has never made me sit up and watch him, having judged him I have to say how surprised I was when going over him!! Super head, good reach of neck, nice front angulation, back short and firm with balanced rear. Movement excellent and an attitude for showing that should STILL be in the open class in fantastic condition. BVIS.

2nd Pittendrigh's Almeira Shadrak at Tomar, Medium sized brown and rust, Good head, eye shape and hue correct, balanced angulations fore and aft, forechest well developed and good depth. Although coming up to eight I can still remember being shown and have always felt he should have won a lot more than he did.
